Padaboli

An exhibition of sarees and jewellery where for the first time,
designs of the sarees are translated into design
inspiration for the handcrafted jewellery.

An Introduction to Padaboli

Weaved with Love, Karigari with Precision!

Every piece of jewellery has the power to make you feel unique. At Gossip, our focus is always on offering you the widest variety of designer costume and silver jewellery collection. Padaboli, an amalgamation of both jewellery and sarees, has been the latest feather in our crown. All the jewellery in this collection has been inspired from the best Jamdani, Baluchori and Garad sarees.

A renowned name in the textile industry.

Every necklace, bangles, rings, earring and chain pendant depicts a beautiful tale of textile and jewellery by offering the perfect blend of both. The best saree designs were chosen from the weavers after a lot of effort, before our skilled Karigars created them into beautiful pieces of jewellery with a touch of our rich culture.

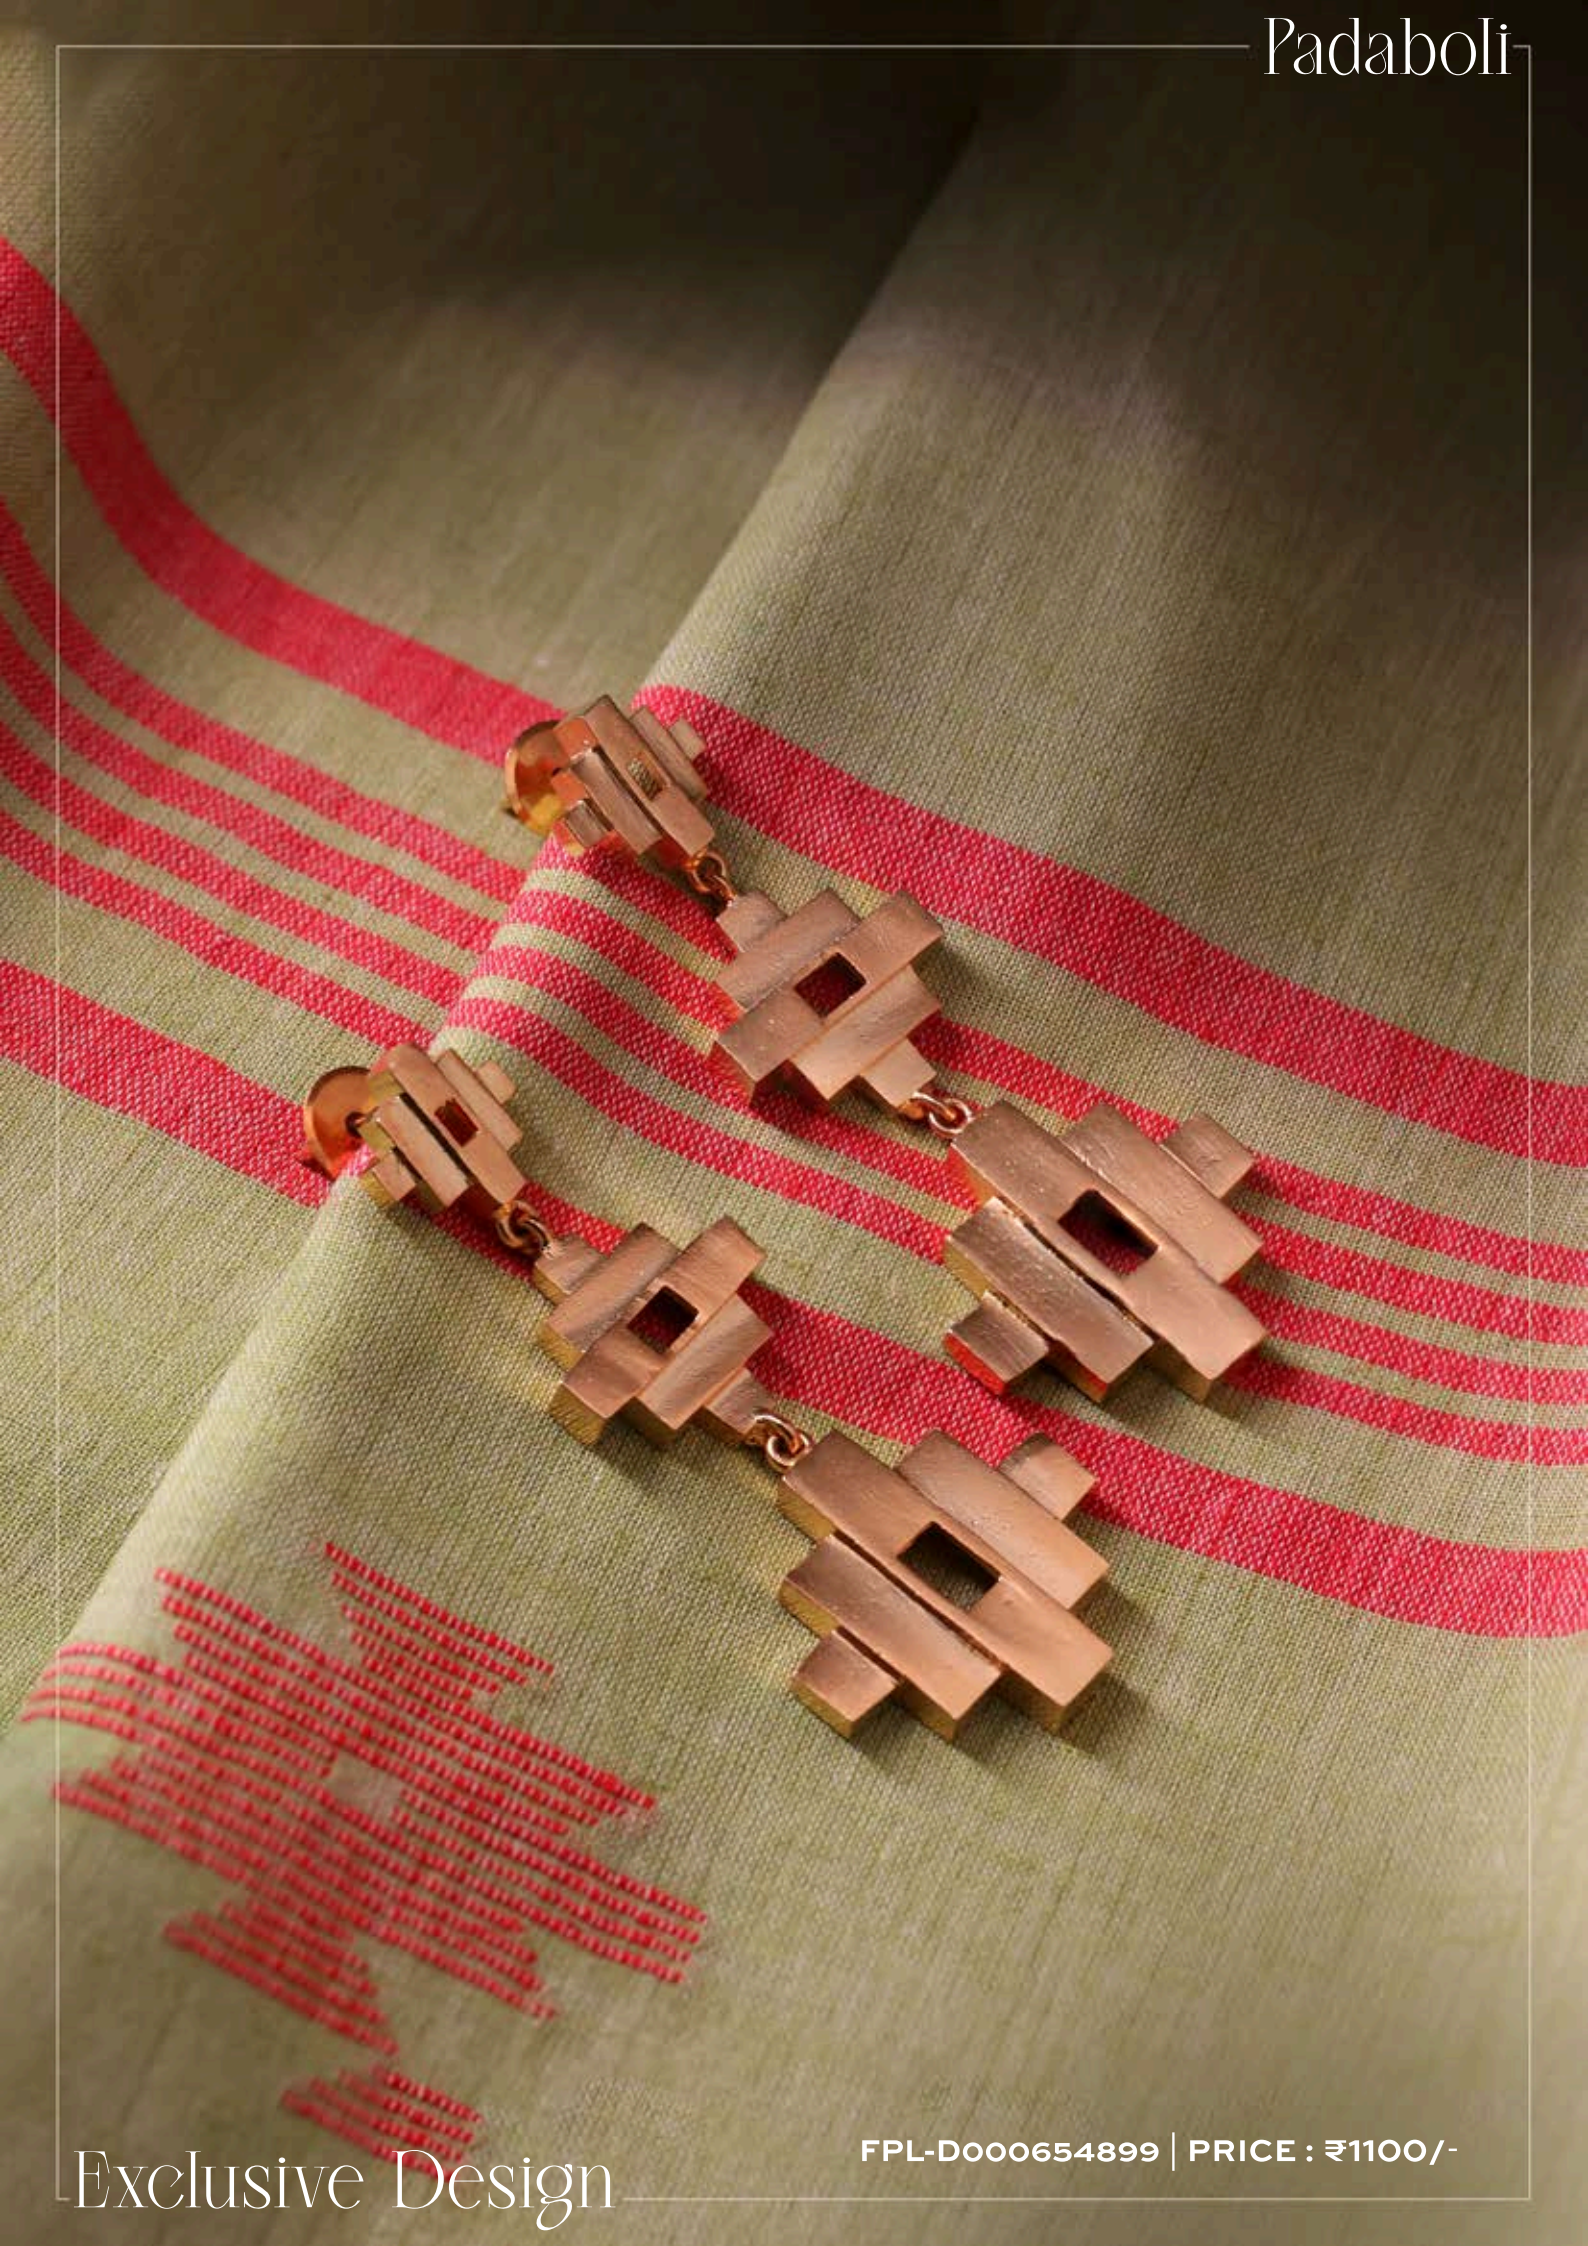

Soak in the essence of revived textile, culture and intricate artwork through our stunning jewellery. The Padaboli collection has been designed for modern women looking for lightweight and trendy jewellery with an artistic touch.

The entire journey of research and development has been quite exciting and we have finally succeeded through the collaboration between the weavers and our Karigars. Browse through the wide variety of jewellery in our Padaboli collection to get spoilt for choices or turn the page to see the preview.
